Last Updated Monday, 24 December 2007

Hello, My name is Victor, born in 1978, I born in Indonesia, I'm IT by discipline but has been trading for forex for more than two years. I run my own Web and Multimedia company named Doxadigital Indonesia, PT. We have been established since late 2002 and have major client like Nissan Motor Indonesia.

I like Forex Trading compare with other trading is because the ability for metatrader to make an Automatic System almost for free. I have my own proprietary trading system to manage my account, hope i could share it with you some day.

Why i create Automatic Trading Mastery site ?

There are reasons of why i making this site (and how i'm very exciting creating it).. let me list what i could think now :

- ATM is an independen review site

Right now, there are thousands of EA which come in two flavor: free and commercial. Now, do you ever wonder which one is work and which one is not, and how to optimize it ? This is what this site is all about. I will rent VPS servers, test and review EAs, and create a review about it, so you could take my review as reference.

- Community

I believe many of online trader would buy/sell EA's. For buyers, i hope this site could save your money to purchase such scam EA and for sellers, i hope you find good buyers ! For Traders, i hope this site could bring you a different perspective of Automatic Trading. So in the end.. i hope this site could give you a nice profit in the long term because the strength and the integrity of the community inside.. we make money together, we rich together.

- Law Of Attraction

I believe that the Law of Attraction working for me right now.. it is a faith that i would meet many new friend (or so called master mind), i believe i'm seeding something here, i believe that we all have our trading system and make it as an additional income for all of us. I'm thankful that i could make something that usefull for others.

My English ?

Well, As indonesian, english is not my mother tongue, mostly i speak bahasa, so if you find my articles or review too confusing because the grammar or english structur.. i do apologize and hope you could contact me to make the article better.

Training makes perfect... i'll keep post mostly in english....
